

Angular Bindings

By: Mosh Hamedani

Interpolation

```
<h1>{{ title }}</h1>
```

Property binding

```
<img [src]="imageUrl" />  

```

Class binding

```
<li [class.active]="isActive" />
```

Style binding

```
<button [style.backgroundColor]="isActive ? 'blue' : 'gray'">
```

Event binding

```
<button (click)="onClick($event)">  
<button on-click="onClick($event)">
```

Two-way binding

```
<input type="text" [(ngModel)]="firstName">  
<input type="text" bindon-ngModel="firstName">
```
